

T. R. OFFERS NEW EVIDENCE TO PROVE VICE

Resumes Steady March Toward Victory, Like Mass Play on Football Gridiron.

SIDE MAY NOT REST TODAY

Efforts to Connect Barnes With "Printing Graft" Likely to Continue Till Monday.

By BOND P. GEDDES.

SYRACUSE, May 7.—Like a mass play on a football gridiron, grinding, shoving, and plowing through legal obstacles, the defense in the Barnes-Roosevelt libel suit today resumed a steady march toward the goal of proving that Barnes personally profited from the Albany printing "graft."

As the third week of the trial drew to a close, Roosevelt's attorneys doubted if they could rest their case before Monday.

Justice Andrews planned to adjourn court this afternoon until Monday. Many of Barnes' witnesses who had arrived here were expected until next week. It was certain that the Barnes side would not be presented before the beginning of the fourth week of the trial.

New Stacks of Books.

Roosevelt's attorneys today plunged anew into stacks of books and records of Barnes' and other Albany printing establishments, completing the chain of technical legal proof in the printing matters.

Unexpected appearance of Gilbert C. Bishop, former cashier of Barnes' newspaper, under a Roosevelt subpoena, furnished a surprise today to the Barnes side, and made easier the proof required of Barnes' books. He has been missing since 1913, and is the only living man who had Barnes' books in charge, the only person able to prove the entries made in the books.

That the plaintiff would strenuously endeavor to impeach Bishop was reported today.

Henry J. Holm, printing expert of Columbia University, was called today to prove that prices charged for State, Albany county and city printing were extravagantly high.

Barnes' counsel declared today that they would move to strike out most, if not all, printing testimony.

Both sides prepared motions to submit upon conclusion of the Roosevelt testimony. The Barnes side may ask that the judge direct the verdict for the plaintiff, without taking any Barnes testimony, but leaving the jury to assess damages.

Barnes Scores Twice.

Of the three important developments of yesterday's session Barnes was the beneficiary of two and the Colonel of one. That to be credited to the Colonel's side, however, more than made up for the advantages accruing to the editor.

The two defeats administered to the Colonel's forces by Justice Andrews were in ruling out evidence and testimony regarding social and civic conditions at Albany city, of which Barnes is the Republican leader, and the failure of the defense to connect the editor with alleged attempts to induce legislation in the interests of the printing ring.

The victory scored by the Colonel against Barnes was in the nature of direct evidence of a documentary character, showing that Barnes had for two years drawn an annual salary from the Lyon company, which had a monopoly of State printing. This evidence was taken from the minute book of the Albany Journal, which had a monopoly of State printing.

Barnes is the editor and principal owner.

GREAT BIRDS CHASE AVIATOR OVER BAY

Pair Seem Bent On Attacking Sperry Until Close Behind His Aeroplane.

NEW YORK, May 7.—While demonstrating his automatic stabilizer in his aeroplane, Lawrence B. Sperry was chased a mile over the upper bay by two large birds that looked like fish-hawks.

They headed for the aeroplane when it was high between the Statue of Liberty and the Statue of Liberty, and appeared bent on fight. But as they came close together just behind it both suddenly shot down about two hundred feet and headed for Bayonne. Those who watched wondered whether the whirr of the motor or the gasolene fumes from the exhaust drove them off.

Hurt in Motor Smash; Asks \$15,000 Damages

Frederick D. Riley failed a suit in the District Supreme Court today against William A. Simpson for \$15,000 damages for injuries alleged to have been received in a collision between his motorcycle and a motor truck owned by the defendant at Gaithersburg, Md., July 6.

Fanciers and Horses Await Call of Bugle

Hundreds of Owners From All Sections of Country—Now Satisfied Show Starting Tomorrow Will Be Best Ever Held Here.

With hundreds of horse lovers and society folks from all sections of the country assembled here, the representatives of the Virginia "horse country" predominating, Washington is today in anticipation of the greatest horse show in its history.

Each hour augments the throngs in hotel lobbies and other public places. Stables in all parts of the city are crowded to their capacity with blue-blooded animals, representing the best horse stock American wealth can buy. The show will open tomorrow afternoon at 2 o'clock, when the United States Engineers Band will strike up the march, "Entry of the Gladiators." Director W. J. Cain will be in charge of the band which will entertain with concert music between the exhibitions.

Gives Dinner Tonight.

Social activities for the week of the show will be inaugurated by the dinner which Gen. James A. Buchanan, president of the show, will give in honor of the judges and officials at the Metropolitan Club this evening.

The principal classes to be shown tomorrow will be the Corinthian, light-weight green hunters, pairs of hunters, military hunting, and medium and heavy weight hunters.

Probably the most spectacular event of the day will be the jumping class, in which will be seen some of the best jumping horses in the country. The riders in this class will be garbed in pink coats and full hunting dress, and must qualify as "amateurs" under conditions adopted by the National Capital office show.

Army circles which will be largely represented in the boxes and grandstand will be most interested in the military hunting class, in which many of the popular officers of Washington society will participate.

Lieut. John M. Eager, of the 1st Cavalry, will be in the class, and Capt. William Mitchell has Highland Chief and Sir Dixon, and Lieut. "Ed" St. John will be seen up on Prince Henry. Capt. Guy Cushman will also compete with Battleground.

PHONES STOCK SALE ACROSS CONTINENT

First New York to Los Angeles Business Deal Over Telephone Is Effected.

NEW YORK, May 7.—The first business deal ever carried on between Los Angeles and New York by telephone was transacted when John G. Lonsdale, of Logan & Bryan, New York brokers, called up L. L. Lonsdale, of Los Angeles, and sold to him 100 shares of Steel.

Lonsdale telephoned from the Day street offices of the American Telephone and Telegraph Company, which yesterday for the first time threw open for public use its new transcontinental extension line from San Francisco to Los Angeles.

More than sixty persons, each with a headpiece which enabled all to listen simultaneously, conversed with prominent men in Los Angeles. "We are anticipating Mayor Mitchell's visit, and hope you will come, too," said Mayor Rose of Los Angeles to Acting Mayor McAnany.

"Greetings from New York city," McAnany answered. "I hope to be in your city this summer."

The first persons to talk over the wire were Francis L. Hine, president of the First National Bank of New York, and J. M. Elliott, president of the First National Bank of Los Angeles. Ruth M. Byers had the distinction of being the first woman to use the new line.

It costs \$22.20 to talk for three minutes from New York to Los Angeles, and \$7.10 for each additional minute.

Turkish Army Corps Is Defeated in Caucasus

LONDON, May 7.—A Petrograd dispatch says: "Details have been received here of the defeat by the Russians of a Turkish army corps in the Caucasus. An effort was made by 20,000 Turks under Djavid Pasha to invade the Dilman-khori region which the Russians occupied."

The entire Turkish force was hurled against the Russian positions, but the Muscovites, although numerically inferior, held their ground. Each successive attack was repulsed at the bayonet point. The Russians then began a counter-attack and completely routed the exhausted Turks, who retired in disorder. The prisoners include the famous Kurd leader, Simko."

2 German Liners Bought By Atlantic Fruit Co.

NEW YORK, May 7.—The Atlantic Fruit Company announces the purchase of the steamships Barnia and Sibiria, formerly owned by the Hamburg-American line, which vessels have been held in American ports since the beginning of the war.

According to officers of the company, an option on the vessels was obtained about a year before the war started. Before completing the purchase an assurance was obtained from the British and French governments that the steamers would not be molested.

The purchase price of the ships is given at \$150,000 each, and both will be placed under American registry.

PASSENGER TRAFFIC IN ITALY SUSPENDED; TROOPS ARE MOVING

Kaiser Warns Rome Through Buelow of Consequences Should Italy Attack Austria.

LATIN ARMY CONCENTRATED

Fleet Also Ready to Strike. Vienna Rushes Work on Frontier's Defenses.

ROME, May 7.—The railway administration has announced the suspension of passenger trains on the main lines. It is understood this action was taken to facilitate the movement of troops and munitions of war to the concentration bases.

Italy has been warned of the consequences of entering the war on the side of the allies. Telegraphing from Berlin, to which he had returned after an inspection of both battle fronts, the Kaiser notified Prince von Buelow that the English troops in the west are useless and that within a fortnight the Russians will be driven out of Galicia.

Will Stand By Austria.

Italy was warned under direct instructions from the Kaiser that Austria's cause is Germany's and that Austria's enemies must be Germany's. Because of this, should Italy come into the war she will be opposed by a great German army.

The Italian government continues its war preparations. The army is concentrated at strategic points. The fleet is ready for action and the first thing to be done after war is declared will be the sailing of the Duke of the Abruzzi as commander-in-chief of the royal fleet. The government has issued a royal decree authorizing the suspension of telegraph and telephone service without notice.

Final Decision Looked For.

Long before the cabinet assembled in the Franchi Palace a great crowd had gathered outside. As each member entered he was greeted with cheers. There was obvious anxiety on the part of the populace to learn the result of the deliberations, as it was felt that the final decision could not long be postponed.

Premier Salandra and Prince von Buelow were in almost constant conference yesterday. The German ambassador is trying to persuade Italy to remain neutral, but it is admitted that he considers the attempt a very serious one. The cabinet met again today. It was announced that the question under

consideration was the parliamentary program, but this statement was not taken seriously.

By orders of the German embassy the principal German schools, the German library and other German institutions heretofore open to the public have been closed.

The Government has sent a sharp note to Turkey questioning the truth of the report that Turkish officers now command the rebels at Tripoli.

Austria Ready for Attack.

Advices from the frontier show that Austria is continuing all of her war preparations at top speed. All passenger service was held up last night owing to the taking over of the frontier railway lines for the transfer of war munitions. Enormous guns of the latest Austrian type have been mounted at the various points where an Italian invasion is possible, and the troops now on the border are declared to be first line Hungarian soldiers and first line Germans.

All of the correspondents of the Austrian and German newspapers have sent their families home. It is said the reason the Austrian and German members of religious orders and ecclesiastical students departed Wednesday night was because of a suggestion from the Vatican that it was felt that their presence in the front at this time would be a real menace.

Interior Department Club Plans Fair Trip

A tour of the United States, to include a visit to the San Francisco Exposition, is being arranged for members of the Home Club of the Department of the Interior. The tourists will leave Washington May 29, to return the last day of June.

During the tour are endeavoring to get a party sufficiently large to obtain a special train for the excursion, which will take in aside from the exposition, many of the beauty spots of America.

COCOANUT OIL MAKES A SPLENDID SHAMPOO

If you want to keep your hair in good condition, the less soap you use the better.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulitified coconut oil (which is pure and entirely greaseless), is much better than soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get mulitified coconut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.—A.D.T.
